

# CRM APPLICATION FOR SCHOOL & COLLEGES

## 1. INTRODUCTION

### 1.1 Overview

A CRM is a system that helps schools manage the entire lifecycle of a potential customer-sometimes also referred to as a lead. With a CRM, you can track and store the data that's important to your operations, all in one easy-to-access place.

### 1.2 Purpose

- CRM is best for its services. It is a smart decision to access some business. In the educational field either, it is a school or college, the load of work is more. It is always a question of how they manage the record of students, staffs and other employees in a perfect way. But the

customer relationship management  
system solves this problem easily.

## **2. Problem Definition & Design Thinking**

### 2.1 Empathy Map

Use this framework to develop a deep, shared understanding and empathy for other people. An empathy map helps describe the aspects of a user's experience, needs and pain points, to quickly understand your users' experience and mindset.

## 5. Advantages & Disadvantages

Advantages	Disadvantages
A CRM system can help automate the result tracking process, saving time and reducing the potential for errors.	Implementing a CRM system can be costly, especially for small organization with limited resources.
A CRM system can provide a centralized database for all candidate information, including internal marks, allowing for easy access	Storing sensitive candidate information in a CRM system requires robust security measures to prevent unauthorized

and analysis of data.	access.
-----------------------	---------

## 6. Applications

- Educational institutions can use a CRM to track the performance of their students, manage their academic records, and communicate with them regarding their progress.
- Recruitment agencies can use a CRM to track the progress of job candidates, manage their resumes, and communicate with them regarding their interviews and job offers.
- Sales and marketing departments can use a CRM to track the performance of their leads and customers, manage their sales and marketing activities, and communicate with them regarding their needs and preferences.

## **7. Conclusion**

Implementing a CRM (Customer Relationship Management) system for tracking candidate results with internal marks solution can provide numerous benefits for educational institutions, recruitment agencies, HR departments, sales and marketing teams, and other industries that require managing relationships with people.

By using a CRM, organizations can track and analyze candidate performance, manage their records, communicate with them regarding their progress, and improve their overall experience. With the help of a CRM, organizations can also streamline their processes, increase efficiency, and make data-driven decisions.

In conclusion, implementing a CRM system for result tracking of a candidate with internal marks can be a valuable investment for any organization that

wants to enhance its candidate management processes and improve its relationship with stakeholders.

## **8. Feature Scope**

- Educational institutions can use a CRM to track the performance of their students, manage their academic records, and communicate with them regarding their progress.
- Recruitment agencies can use a CRM to track the progress of job candidates, manage their resumes, and communicate with them regarding their interviews and job offers.
- HR departments can use a CRM to track the performance of their employees, manage their employment records, and communicate with them regarding their career development.
- Sales and marketing departments can use a CRM to track the performance of their leads and customers, manage their sales and marketing

activities, and communicate with them regarding their needs and preferences.
